Outmatching the Philosophers U.N.

Outmatching the Philosophers Control than any of his hearers possessed, he presented to the Athenians—God. He talked their own language, but he was a better philosopher than any of his listeners. He told them that they were "too religious," in the superficial fashion of those to whom all religions are alike. (Oh, yea; we have many of the same type of pseudo-"intelliculars" today.) In their zeal for Comprehensiveness they even had an altar. "To The Unknown God."

There were some converts at once, including and Areopagite named Dionysius and Dionysius and Areopagite named Dionysius and Areopagite named Dionysius and Dionys Demaris, a woman. Corinth, but his message and the Church remained.

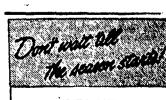

Corinth was so corrupt that the word "Corinthianise" had passed into common use. I had personal experience of this; when in Corinth I bought an ancient ring seal, lately found by a farmer. Later, when I examined it under a glass, I discovered that it was so pornographic that I would not keep it. Yet this sin-sodden city was chosen as a startegic mission center by the great apostle. In the worst of sinners he saw potential saints. That is the lesson to which every

the great apostle. In the worst of sinners he saw potential saints. That is the lesson to which every mission field bears witness.

In Corinth Paul dwelt with Aquila and Priscilla, fellow craftnen and Jewish exiles from Rome. Paul was by trade a tent-maker; I once bought in Tarsus a goats' hair rug, of the sort that Paul wove. This friendship of the three tent-makers is suggestive. For its within the circle of their trades that most men, find their fellowships. Nowadays we see, in the opidemic of strikes, the strength of the tie of unity in labor. Paul's example as a self-supporting preacher is followed today in many of the smaller religious bodies. The Sunday sermons of week-long tollers are not likely to lack the human element.

As we contemplate the audacity of this callous-handed weaver in going up against the roaring rich and rotten city of Corinth, we sense afresh his complete confidence in his Message and his Master. His slogan was. "We preach Christ crucified." The uplifted Redeemer drew men to Him, even from the sinful sinks of Corinthian life. These Paul later concidered worthy to receive and understand the great poem on lovether its rot the Corinthians. In coonnection with this Lesson, every

Yet the judges admit it wasn't just because Bert had the finest ears of corn. He knew how to display them: neatly arranged, with the husks cleanly trimmed, and the booth white and spotless.

And Andy, of course, is a wholehearted supporter of "Self Regulation." That's the system by which the Brewers and tavern keepers themselves make sure that taverns selling beer are clean and orderly.

We have never seen more lovely floral offerings than those which covered her casket and adorned her grave. We speak of "the language of flowers," When do they ever speak more tenderly, lovingly and beautifully than when they bespeak the esteem of the wounded spirit, the devotion of the broken heart?

May this family so sadly broken on earth, by God's abounding grace be a united family around His throne in heaven.

Beyond the sunset's radiant glow, we hope to meet her, where farewell words are never spoken, and sunset hours can never come.

Dr. Pepper Still

The price ceiling on soft drinks is off. However, in spite of the removal of price ceilings and in spite of rising costs we have not raise ed the wholesale price of Dr. Pepper.

The 5c price for Dr. Pepper is a cherished American tradition. Dr. Pepper Company and Dr. Pepper bottlers, always have and always will, resist every influence that may threaten your privilege to enjoy Dr. Pepper for a nickel. For Dr. Pepper is a food...a liquid bite-toeat, with a jiffy-quick energy lift. With millions of people it's as standard at 10, 2 and 4 o'clock daily as bread and butter with meals.

Our present high cost of operations can be offset by increased volume. This can be made possible only through a substantial increase in our sugar allotments which in 1946 averaged the lowest since the war started...at present 60% of our 1341 usage. We feel we are justified in the belief that our present acua'e sugar ration can and should be relieved...permitting us sufficient sugar to operate with a volume of business that will produce a minimum margin of profit so we can preserve for you the traditional 5c price for a Dr. Pepper.
